EXOTIC ELEVATIONS

Wondering what sets our products apart?

At Exotic Elevations, we specialize in preserving the natural cannabinoids and terpenes that give each cultivar its unique character.

Did you know that Cannabinoids like THC and Cannabis Terpenes are naturally colorless?

The golden or amber tint you see in most extracts comes from unwanted compounds like chlorophyll, fats, and other waxes that get extracted during conventional processing.

Our process is different. Without using harsh methods like chromatography, bleaches, clays, or centrifuges, we leave those unwanted compounds behind—right where they belong.

The result? A clean, flavorful extract that captures the true essence of the plant. Every product we make is crafted to showcase the specific effects and experience of the original cultivars used.
